ABOUT ME

Computer Science Engineering student specializing in Cloud Computing and Automation, with hands-on experience in Full-Stack Development and AI-powered applications. Skilled in building web applications using modern technologies, with a strong interest in Cloud and Software Development.

SKILLS

Technical Skills Java, C++, C, Python, HTML, CSS, Tailwind CSS, Bootstrap, JavaScript, React.js, Node.js, Express.js, REST APIs, GenAI APIs, SQL, Git, GitHub

Concepts Object-Oriented Programming, Computer Networks, Operating Systems

EXPERIENCE

Codveda Technologies: WEB DEVELOPMENT INTERN

May 2026 - June 2026

Developed responsive full-stack web applications using the MERN stack, building RESTful APIs and implementing CRUD operations with Node.js and Express.js. Integrated MongoDB for data storage and developed server-side application logic while optimizing React components and database operations to improve application performance, maintainability, and overall user experience.

EDUCATION

Vellore Institute of Technology, India

2023 - 2027

B.Tech. in Computer Science Engineering Specialization in Cloud Computing and Automation **CGPA: 8.68/10**

PROJECTS

CodeScribe — AI-Powered Code Analysis & Review Platform

[Live Preview]

- Built an AI platform that analyzes, reviews, and documents source code with actionable developer insights.
- Implemented AI-powered code reviews, JWT auth, and multi-language support using React, Node.js, Express.js, MongoDB, and Gemini API.
- Evaluated code for readability, performance, and security, generating structured documentation via an interactive dashboard.

Interviewly AI — AI Job Preparation Platform

[Live Preview]

- Designed to help candidates prepare for job opportunities through personalized, AI-driven interview preparation.
- Integrated Gemini AI to evaluate job descriptions and candidate profiles, identify skill gaps, and generate tailored interview scenarios.
- Automated ATS-compliant resume generation with Puppeteer, enabling users to create customized resumes directly from the platform.

CloudShield — Cloud Security Posture Management Platform

[Live Preview]

- Developed a CSPM platform to monitor cloud resources, assess security posture, and identify security risks.
- Built REST APIs using Node.js, Express.js, PostgreSQL, and Prisma with JWT authentication, RBAC, findings, and remediation workflows.
- Developed a React and TypeScript dashboard to visualize security scores, resource health, findings, and remediation status for faster risk identification.

PROFESSIONAL DEVELOPMENT & CERTIFICATIONS

- IBM DevOps, Agile & Design Thinking certification
- Google IT Support Professional Certificate
- Gen AI Fundamentals - Tutedude (Ongoing, 2026)
