OBJECTIVE

I am a Computer Science Engineering student passionate about software development, cloud computing, and AI/ML. Skilled in Python, Java, C++, and the MERN Stack, I have hands-on experience building full-stack web applications and intelligent solutions through internships, projects, and hackathons. I enjoy solving real-world problems, exploring emerging technologies, and continuously enhancing my technical and problem-solving skills. Adaptable and a quick learner, I thrive in collaborative and fast-paced environments.

EDUCATION

Bachelor of Technology (B.Tech)

Computer Science Engineering Specialization in Cloud Computing and Automation

Vellore Institute of Technology, Bhopal

CGPA - 8.68/10

2023 - 2027

SKILLS

Technical Skills Java, C++, C, Python, HTML, CSS, Tailwind CSS, JavaScript, React.js, Node.js
Express.js, Spring Boot, SQL, REST API, Git, GitHub

Concepts Object-Oriented Programming, Computer Networks, Operating Systems

EXPERIENCE

Codveda Technologies: WEB DEVELOPMENT INTERN

May 2026 - June 2026

- Engineered responsive full-stack web applications using the MERN stack, focusing on scalable architecture and modern UI/UX principles.
- Developed secure RESTful APIs, implemented CRUD functionality, integrated MongoDB databases, and managed server-side logic with Express.js and Node.js.
- Enhanced application performance by optimizing React components, improving database efficiency, and implementing clean, maintainable code following best development practices.

PROJECTS

Grade Change Intelligence in Paper Making Process

Developed a full-stack AI-based Grade Change Intelligence system using Python, Random Forest, FastAPI, and React to predict Basis Weight deviations during paper grade transitions. The solution provides explainable recommendations, process correlation analysis, interactive dashboards, and operator feedback tracking, achieving 95% prediction accuracy for proactive process optimization.

Library Management System

Developed a full-stack Library Management System using C, ASP.NET, SQL Server, HTML, CSS, and JavaScript to automate library operations. The application features secure user authentication, book catalog management, issue/return tracking, CRUD functionality, role-based access, and efficient database management through a responsive web interface.

PROFESSIONAL DEVELOPMENT CERTIFICATIONS

- IBM DevOps, Agile Design Thinking certification
- Google IT Support Professional Certificate
- Gen AI Fundamentals – Tutedude (Ongoing, 2026)
